It is important that your grant is used effectively and based on school need. The [Education Inspection Framework](#) (Ofsted 2019 p64) makes clear there will be a focus on **‘whether leaders and those responsible for governors all understand their respective roles and perform these in a way that enhances the effectiveness of the school’**.

Under the [Quality of Education criteria](#) (p41) inspectors consider the extent to which schools can articulate their curriculum (INTENT), construct their curriculum (IMPLEMENTATION) and demonstrate the outcomes which result (IMPACT).

To assist schools with common transferable language this template has been developed to utilise the same three headings which should make your plans easily transferable between working documents.

Schools must use the funding to make **additional and sustainable** improvements to the quality of Physical Education, School Sport and Physical Activity (PESSPA) they offer. This means that you should use

the Primary PE and sport premium to:

- Develop or add to the PESSPA activities that your school already offer
- Build capacity and capability within the school to ensure that improvements made now will benefit pupils joining the school in future years

Please visit gov.uk for the revised DfE guidance including the 5 key indicators across which schools should demonstrate an improvement. This document will help you to review your provision and to report your spend. DfE encourages schools to use this template as an effective way of meeting the reporting requirements of the Primary PE and sport premium.

We recommend you start by reflecting on the impact of current provision and reviewing the previous spend.

Schools are required to [publish details](#) of how they spend this funding as well as on the impact it has on pupils' PE and sport participation and attainment by the end of the summer term or by **31st July 2021** at the latest.

**** In the case of any under-spend from 2019/20 which has been carried over this must be used and published by 31st March 2021.**

We recommend regularly updating the table and publishing it on your website throughout the year. This evidences your ongoing self-evaluation of how you are using the funding to secure maximum, sustainable impact. Final copy must be posted on your website by the end of the academic year and no later than the 31st July 2021. To see an example of how to complete the table please click [HERE](#).

Support for review and reflection - considering the 5 key indicators from DfE, what development needs are a priority for your setting and your pupils now and why? Use the space below to reflect on previous spend and key achievements and areas for development.

Please note: Although there has been considerable disruption in 2020 it is important that you publish details on your website of how you spend the funding - this is a legal requirement.

N.B. In this section you should refer to any adjustments you might have made due to Covid-19 and how these will influence further improvement.

Key achievements to date until July 2020:	Areas for further improvement and baseline evidence of need:
<p>Complete P.E is now being embedded into our curriculum, progression would have been impacted due to covid closures but we hope that a year with less covid interruption will allow children to see the developmental and progressive benefits of the planned curriculum.</p> <p>Lunchtime zoning increased participation in physical activity until the March closure. However, lots of physical activity was encouraged for both those in school during lockdown (Joe Wicks, PE and several play activities) and those at home via remote learning. Two whole staff motivational videos were sent via social media during lockdown to encourage participation in sports. We also ran a virtual sport week event via our online learning platform and daily Joe wicks workouts were encouraged.</p> <p>A wider range of equipment continues to be made available to maintain an active time at lunch.</p> <p>Participation in available clubs is precovid closure was high.</p> <p>The sports coach continues to support during lunchtimes to enhance active time at lunch.</p>	<p>Obesity levels continue to be above local and national averages, continued outreach with parents is needed to tackle the issue as well as increasing the intensity level and frequency of physical activity for specific pupils. Covid concerns and restrictions and risk assessments have temporarily reduced the number of physical sports that we offer. We are hoping to restart physical clubs from Spring 2.</p> <p>PE and physical activities and breaks and lunch play will continue to be encouraged from September.</p> <p>New Sport equipment to be purchased for play so each bubble can have their own covid safe equipment.</p>
